THE TRADING LAB

Programme Overview

Fuelled by results, our flagship programme offers a full trading curriculum & bespoke tools for a transformative education experience. With the education, tools, support & data all on hand, our programme equips you with everything you could possibly need on your journey to becoming a profitable trader.

Is the programme right for you?

If you're someone that wants to make consistent profits, either as a primary or supplementary income source, then this programme is for you. If you want to be your own boss and have the ability to work when and where you want with nothing other than a laptop, then again, this programme is for you. You don't need prior trading experience and an economics degree isn't needed - just a willingness to work hard and commit yourself to the programme 100%.

Pro Trader Course

11 information-packed modules teach you a complete data-validated trading methodology so you can learn from a seasoned professional with years of real market experience.

What You Get:

A full trading curriculum equipping you with the knowledge & skills to build a profitable trading business, from the ground up. Over 60 high-quality lessons, quizzes, action items & learning resources ensure you master our mechanical rules-based strategy.

The Benefits:

The structure of our course means you can learn the skill of trading quickly. We're seeing even beginners become profitable traders within just months because of a structured learning environment where they can study as and when suits them. Unlike most other educators who provide monthly memberships, we provide lifetime access to our entire course meaning you can learn around your other commitments.

Pro Trader Course: Lesson Outline

Module 1

Market Structure & Price Action

- Technical Analysis 2.0
- Configuring TradingView
- The Holy Grail to Market Structure: Impulses & Corrections
- Drawing Structure

- The Matrix of the Market
- The Higher Time Frames
- The Lower Time Frames
- MTF Analysis: Summary

Module 3

Risk Management

- Why Risk Management is King
- The Initial Stop
- The 1% & Portfolio Rules
- Position Sizing
- Correlation

Module 4

Entering The Market

- Understanding Order Types
- News

Module 5

The Setups

- Introduction
- Setup A

- Setup B

- Valid Vs High Probability

Module 6

Trade Management

- Trade Management: % Trail
- Trade Management: Structure Trail
- Hybrid Management
- Maximising Profitability: Scaling-in & Risk Pyramiding
- Checklists

Module 7

Journaling & Quantitative Analysis

- Journaling
- Trade Analyser
- Back-Testing & The MSS

Module 8

Routines

- Weekend Routine
- Daily Routine
- Bi-Weekly Self Review

Module 9

Practical Psychology

- Why is Good, How is Better
- Pillar 1: Dealing With Losses
- Pillar 2: Removing the Concept of Money
- Pillar 3: Thinking in Probabilities
- Pillar 4: Remaining Relentlessly Positive

Pro Trader Course: Lesson Outline

Module 10

Your Trading Plan

- Building a Winning Trading Plan

Module 11

Next Steps

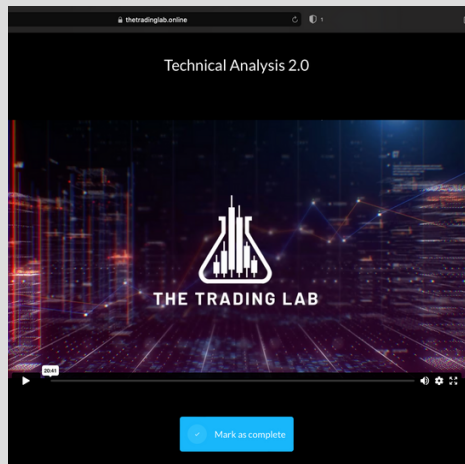

- Next Steps

Module 12

Bonus Module - Optimising Performance

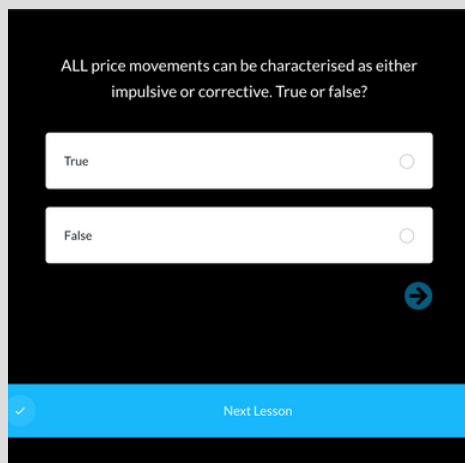

- Introduction
- Your Performance Benchmark
- Grading Your Trade
- Working With Alternative Time Frames
- Advancing Your Trade Plan
- Trading Through the Chart
- Syncing Multiple Accounts
- Eliminating Performance Flaws Through Self-Education
- Optimising Performance in 30 Days

Pro Trader Course: How it Works

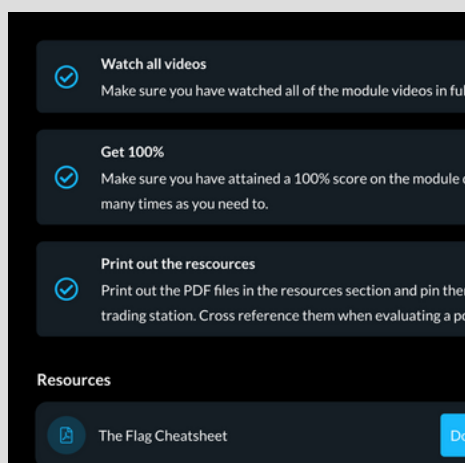

Video Lessons

High quality, step-by-step video lessons ensure you learn in the most efficient way possible. Lifetime access means you can pause, rewind and rewatch as many times as you need.

Quizzes

Each module is concluded with a practical knowledge test to ensure you are fully assimilating the material. These quizzes contain both text and picture-based questions, highlighting gaps in your knowledge.

Action Items

Action items are highly practical 'homework' style exercises to be completed at the end of each module. These tasks ensure you are properly applying the principles of the module, allowing you to progress with confidence.

Josh: £14k profit on his first live month!

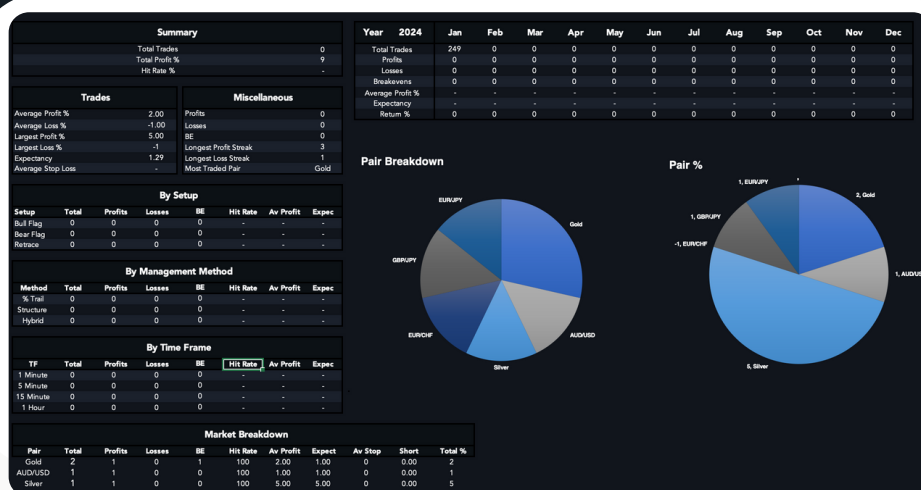

I cannot thank The Trading Lab enough for giving me such an amazing platform to develop my trading skills and knowledge. The course provides lifetime access to an online community of like-minded traders as well as comprehensive learning modules which cover every aspect you will need to become a consistent and profitable trader.

Josh's Story

When Josh joined our programme in January 2022, he would never have dreamed that in just **6 short months**, he'd be making **5 figure trading profits**, but that's exactly what happened. Despite joining with no prior trading experience, using our strategies, Josh was able to rapidly master his skillset, get FTMO funded and **make a £14,000 profit on his first live month!** He's seen been able to quit his full-time business whilst simultaneously reaching the number 1 spot for 2 prop firm's daily profit leaderboards! Josh has also been an invaluable source of insight within our community Discord channel, regularly posting his trades and offering constructive feedback to other members.

Bespoke Tools & Resources

The Trading Lab provides you with a collection of out-the-box, ready-to-go tools that will take your trading to the next level. No need to source or pay for third-party tools. Our toolkit includes everything a professional trader needs.

What You Get:

An out-the-box trader toolkit filled with custom-built tools. Trade analysers, journals & trading plan templates are all included as standard as part of your membership.

The Benefits:

Rather than paying expensive additional fees like most other providers charge, our tools come as standard. Rather than having to source third-party tools or attempt to build them yourself, your Trading Lab membership means you can simply download and start using - freeing up your time to focus on trading and making profit!

Unpacking The Tools: Trade Analyser

One of the most revered of our tools is the Trade Analyser - a custom-built spreadsheet breaking down your personal trading data. This tool summarises all of your performance metrics, providing invaluable insights into your strengths and weaknesses as a trader as well as highlighting areas of improvement.

A breakdown of your performance by each setup.

See a summary of how each of our rules-based management methods performs for you.

Full overview of the markets you've traded.

Visually see the frequency of the markets you've traded.

Quickly see which markets are most profitable.

Get a complete month by month breakdown of your trading results.

Quickly see how you trade different time frames, providing key insights into how you can adjust your trade execution for maximum profit.

Brad: Beginner to £5k months

I recently completed The Trading Lab course, and I must say it exceeded my expectations in every way. This course has undoubtedly been a game-changer for my understanding and proficiency in the forex market.

Brad's Story

Brad joined as an unemployed but ambitious 25 year old who, as a new Father wanted to secure an income that would allow him to provide financially for his family whilst giving him the time freedom to spend with his son. Despite having never traded before or having no previous experience, Brad's results became a testament to his work ethic and eagerness to master the skill of trading. **Within 4 months of joining, he had secured his first 5k payout.** In the coming months, this was repeated with consistency giving him the financial freedom and security he so wanted just months before.

Global Community

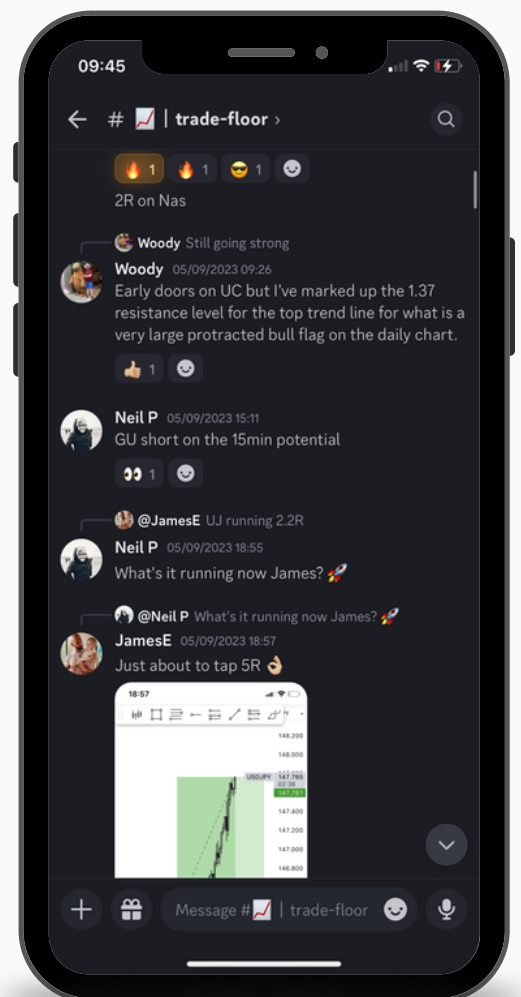

Trade beside James and other members in the exclusive member-only Discord channel. Share ideas, ask questions, get feedback and chat with other like-minded people.

What You Get:

A private member-only Discord channel with James & 100+ members in interacting every day. You get unlimited access to the channel with a dedicated Questions channel for any support or additional guidance you need.

The Benefits:

Don't go at it alone! By joining our community, you immediately get access to a mastermind of traders all on the same mission as you - to achieve financial freedom through trading. Any support, motivation, guidance or feedback you need is only a couple of clicks away. You can also follow along with the trades of James and other members as you refine and master your own skillset.

Master Strategy Spreadsheet

Nothing we teach at The Trading Lab hasn't been rigorously tested against historical data. As opposed to most trading educators who just give you their word their strategy works, we prove it!

What You Get:

An industry-redefining database supplying you with the information of every trade which meets our strategy rules over 10 forex markets. Logged since May 2020 & updated daily, over 3500+ trades are logged providing a comprehensive insight into the methodology performance.

The Benefits:

Because we provide the raw data proving the strategy efficacy, you're able to trade it with confidence knowing it has a proven statistical edge. Our database also means no manual backtesting or data collection, simply filter the data in any way you want to investigate individual components of the strategy or market characteristics.

Strategy Effectiveness: Key Performance Metrics

Strike rate: 72.06%

Average profit: 2.84%

Average stop loss: 23.87 pips

Most traded pair: AUD/USD

Based on data collected from May 2020 to January 2024.

These metrics are based on the tracking of every trade setup which occurred on 10 forex markets between stated dates, over a 24 hour period. Members are able to filter the data including markets shown, time, setups traded and more to gain a personalised overview of the strategy performance.

The MSS, or Master Strategy Spreadsheets logs each instance of our trading strategy, detailing every component of the trade, including execution time frame, time triggered & stop loss size. This database, which is updated every day with new entries means members can completely skip the step of manual back-testing that other educators often encourage.

Pro Trader Course: Other Features

If a professional education, bespoke tools & a global community wasn't enough we also provide...

Trade Recaps:

See first-hand how a profitable trader performs technical analysis, builds watchlists & capitalises on market opportunities. See the strategy applied in a real, everyday context, providing a practical perspective of its application.

Mastery Blueprint

Located within the Member Dashboard, the Mastery Blueprint provides a series of practical steps designed to help members extract as much value & to use the programme in the most effective way possible.

Completion Certificates

Acknowledge the successful completion of the course with a personalised certificate.

Terry: From struggling trader to £8k prop firm profit

I'd been trading 18 months prior to joining the course and struggled to find consistency. After the first month of joining, every single month after has been profitable, often with double digit returns. I recently got funded with a prop firm, making £8,000 in my first live month! This is really a life-changing programme. Thanks to James for putting this together!

Terry's Story

Terry's story mirrors that of many aspiring traders - jumping from educator to educator only to consistently find himself frustrated due to strategies which fail to deliver the results promised. However, immediately after joining our programme, Terry found that our rules-based methods resonated with him allowing to trade part time alongside his main job. After **banking just over £8K** on the first month of his FTMO account, Terry decided to give notice so he could focus on his trading completely. Now **free from the clutches of his former 9-5**, he has been able to dramatically scale his personal trading account whilst travelling the world.

Pro Trader Course: **FAQ**

Will trading be right for me?

If you're seeking to enhance your financial situation, gain more time or freedom, trading may be a viable option for you. We firmly believe that virtually anyone can become a successful trader, affording the opportunity to work remotely, set your own schedule, and potentially achieve uncapped earnings.

Can I come from a previous educator or course?

Absolutely! The course is designed for all trading levels and experiences.

How long does it take to complete the course?

We typically recommend allowing for around 4 weeks but students have also gone through and mastered the content in half of that time. Regardless, you will get lifetime access to the course so you can complete it and refer back to it for as long as you need.

Do I need experience?

No. Our programme is designed for any experience level.

Can I do the programme part time?

Yes. Lifetime access means you can work through the content as & when you want at a pace that suits you. Even after learning the methodology, you are able to apply it & trade around your other life/work commitments, finding a style that truly harmonises with your life.

If you have more questions, please email us at
questions@thetradinglab.online

Pricing

The Pro Trader Course is priced at £997. This is a one-off payment which gives you lifetime access to the entire programme. There are no automatic subscriptions or additional charges once you've joined. After payment, you will immediately be sent an email with your unique account details. These will enable you to log in to your member dashboard and get instant access to the programme.

If you could invest in a company today which in 6 months time would pay you many times that each and every month...would you?

Taking the step to join our programme should be treated as making an invaluable investment into yourself and your financial future. This investment could easily be recouped once you've gained the skills that this programme will give you. In fact, many members have made back the initial programme price and more in their first live month of trading.
